

**Remarks**

This paper is filed in response to the Notice of Allowability mailed August 7, 2008. The Applicants hereby confirm their approval of the amendments to the claims set forth in the Notice of Allowability.

By this paper, the abstract as set forth in the Notice of Allowability is amended. No new matter is added to the Application by way of this amendment.

### **Comments on Statement of Reasons for Allowance**

In response to the Examiner's statement of reasons for allowance (hereafter "statement") set forth in the Notice of Allowability, the Applicants thank the Examiner for recognizing the patentability of the allowed claims. However, to the extent the statement fails to recite the entirety of the language of a given claim, the Applicants respectfully disagree with the statement. The Applicants note that it is the combination of features recited in a claim that renders the claim patentable, and not any feature or features of the claim in isolation.

Moreover, to the extent the statement groups multiple claims together in a common discussion, the Applicants respectfully disagree with the statement. The Applicants note that the claims differ from each other in language and in scope. Additionally, to the extent the statement, in discussing a given claim, recites language which differs from the language recited in the claim, the Applicants respectfully disagree with the statement.

Should questions exist after consideration of the foregoing amendments and remarks, the Office is kindly requested to contact the Applicants' attorney at the address or telephone number given herein.

DATED this 7th day of November, 2008.

Respectfully submitted,

/Kevin B. Laurence/
